“Georgia’s Dental Medicaid Program: A Crisis Brewing”

Friday, November 20, 2009

10 a.m. - 12 Noon with lunch provided

Georgia Dental Association Conference Room

The Georgia Dental Association has major concerns about the direction that the dental Medicaid and PeachCare programs are headed. Ongoing and unreasonable changes to the program by the CMOs call into question whether children will have access to dental care.

You can make a difference!

Please join us and other colleagues to discuss what we can accomplish together to help children receive the dental care that they need.

If you cannot attend, please encourage another representative from your organization to come. If you wish to bring a colleague with you, please let us know.
